

## Downloading Additional Libraries for the Fabric Studio

Before purchasing a Fabric Studio Add-On Library make sure either the Deluxe or Basic Version of the Fabric Studio Software is installed on your computer. This is an auto install process which is different from the years passed. This method installs directly into the Sample Library of your program for Windows XP, Vista, Windows 7 and Windows 8.

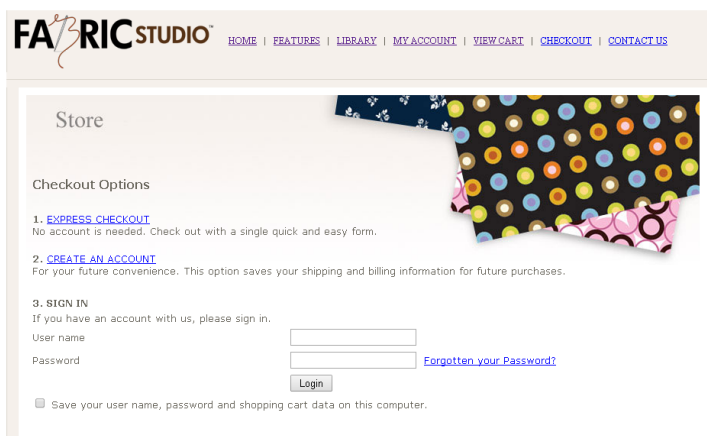

Before purchasing the download make sure you do not use the Express Checkout option in the Shopping Cart. You will not be able to go back into the shopping and download the Library at a later date.

The following screen shots will help you become familiar with the download process:

1. Add the download Version of any of libraries to your shopping cart.

2. Proceed to checkout. Make sure you setup an account and **don't use Express Checkout.**

- Once the download is complete click on the down arrow button, and select open.

Order Details

Quantity	Name	Price	Total
